Dick Brooks  
Reliable Energy Analytics

Dear Dick,

We want to thank you for serving as a mentor in the Cybersecurity Mentorship Program. We are so grateful for the generous commitment you have made of your time, passion, and expertise while serving as a mentor. Your student mentee was lucky to have you serve as their guide as they explored a career in cybersecurity.

We invite you to serve as a mentor again and encourage you to apply when the MassCyberCenter releases applications in August for the next cycle of the Cybersecurity Mentorship Program. We also ask you to encourage your colleagues to follow your lead and apply to serve as a mentor. Whether it is in this program or other settings, we hope that you continue to make time in your busy schedules to mentor students, young professionals, and other up and coming talent both inside and outside of your organization.

Thank you again for the leadership you have shown by participating in the Cybersecurity Mentorship Program. You have done a real public service by serving as a mentor. People like you make the Commonwealth a special place to live and work. We look forward to continue working with you to grow and diversify the cybersecurity workforce while building a more resilient Commonwealth.

Sincerely,

---

Carolyn A. Kirk
